## Priority Points Company Listing

### 2018 SEG Annual Meeting 14-19 October

### Anaheim Conv. Center, Anaheim, California

The SEG Priority Points System is used to assign booths in a fair and equitable manner. Exhibitors receive points based on SEG Corporate Membership, previous and current year exposition, advertising, and sponsorship participation. Points are totaled and booth assignments are made based on the total number of points. The Rebooking Appointed Time Schedule that is issued for rebooking selections is based on companies that are on current year exhibit floor and present to make booth selections.

#### **Category I: SEG Corporate Membership**

One point is accumulated for each year a company has been an SEG Corporate Member.

#### **Category II: Exposition Participation**

One point is accumulated for each year a company has exhibited in the SEG Annual Meeting during the previous 10 years (2008—2017).

One point is accumulated for each standard booth (or equivalent) occupied during the previous 4 SEG Annual Meetings (2014—2017).

#### **Category III: Advertising**

Priority points are calculated from July 2016—June 2017 for application to the 2018 SEG Annual Meeting Anaheim.

Exhibiting companies earn .5 priority point per \$500 of Advertising contributed to the various SEG mediums listed below. We will analyze your total contribution to determine points.

Advertising opportunities:

- **Geophysics**
- *The Leading Edge*
- *Interpretation*
- Annual Meeting Official Program
- Annual Meeting Show Daily
- SEG eNewsletters
- SEG Website

Note: Geophysics, *Interpretation*, and *The Leading Edge* are SEG publications.

#### **Category IV: Sponsorship**

Exhibiting companies earn 0.5 priority point per \$500 of Annual Meeting Sponsorships.

Note: Points are calculated from all data collected through 12 July 2017.

CGGVERITAS (pts from RC2) and SERCEL	528
ION (pts from Reed, De Regt, Tescorp, Pelton)	399
SCHLUMBERGER OILFIELD SERVICES/WESTERNGECO	378.5
