We are committed to providing our attendees a unique platform with an immersive workshop experience to maintain the same depth in knowledge-sharing, engagement and networking, in order to guarantee a comprehensive online experience. Like the physical workshop, the virtual workshop will follow the technical program components such as opening & keynote speech, presentations from industry experts, and moderated discussions. The platform offers an optimized and powerful webpage experience – from the comfort of your home or office:

**Main Stage**  
Presentations and discussions

**Networking**  
Network & make new connections

**Breakout Rooms**  
Technical round table discussions

**Meeting Hub**  
One-on-one meetings

**Live Chat**  
Public discussions and Q&A

**On Demand**  
Playback recorded sessions

## WORKSHOP DESCRIPTION

This event will feature three key speakers Mark Zoback (Stanford University), Herbert Einstein (MIT), John McLennan (University of Utah), and will also include speakers from operators, technology developers, and service providers.
