

**SEG**  
**SEG**  
 SUMMER RESEARCH  
 WORKSHOP

GALVESTON, TX, USA

27–30 AUGUST 2018

## RECENT ADVANCES AND APPLICATIONS IN BOREHOLE GEOPHYSICS

The SEG Summer Research Workshop will include a comprehensive review and exchange on what is possible today by using sensors inside borehole. Borehole Geophysics has been associated for years with zero-offset VSP and time-depth calibration. In recent years, this discipline has immensely evolved toward more advanced applications for field development and monitoring or production optimization as well as exploration purposes.

### BECOME A SPONSOR

**SPONSORSHIP RECOGNITION OPPORTUNITIES** are available for the SEG 2018 Summer Research Workshop. For more information regarding sponsorships email Kay Baker at [kbaker@seg.org](mailto:kbaker@seg.org).

#### Icebreaker \$5,000 (exclusive)
