www.seg.org/am

The SEG Priority Points System is used to assign booths in a fair and equitable manner. Exhibitors receive points based on SEG Corporate Membership, previous and current year exposition, advertising, and sponsorship participation. Points are totaled and booth assignments are made based on the total number of points. The Rebooking Appointed Time Schedule that is issued for rebooking selections is based on companies that are on current year exhibit floor and present to make booth selections.

Category I: SEG Corporate Membership

One point is accumulated for each year a company has been an SEG Corporate Member.

Category II: Exposition Participation

One point is accumulated for each year a company has exhibited in the SEG Annual Meeting during the previous 10 years (2010—2019).

One point is accumulated for each standard booth (or equivalent) occupied during the previous 4 SEG Annual Meetings (2016—2019).

Category III: Advertising

Priority points are calculated from July 2018—June 2019 for application to the 2020 SEG Annual Meeting in Houston.

Exhibiting companies earn .5 priority point per \$500 of Advertising contributed to the various SEG mediums listed below. We will analyze your total contribution to determine points.

Advertising opportunities:

- **Geophysics**
- *The Leading Edge*
- *Interpretation*
- Annual Meeting Official Program
- Daily Events Emails
- SEG Website

Note: Geophysics, *Interpretation*, and *The Leading Edge* are SEG publications.

Category IV: Sponsorship

Exhibiting companies earn 0.5 priority point per \$500 of Annual Meeting Sponsorships.

Note: Points are calculated from all data collected through 12 July 2019.

CGGVERITAS (pts from RC2) and SERCEL	424.00
ION (pts from Reed, De Regt, Tescorp, Pelton)	380.50
