

SEG/AGU WORKSHOP

HILO HAWAII

11-13 JULY 2016

Upper Crust Physics of Rocks

This Forum will bring together a wide range of geoscience practitioners to share, discuss and hypothesize about the current and future state of rendering rock properties and the state of utilizing these properties across our diverse industry applications. The focus will be in (1) rock and fluid properties at the pre-production reservoirs, (2) quantitative seismic and non-seismic interpretation, and (3) dynamic reconstruction of processes for conventional and unconventional reservoirs using seismic and non-seismic methods.

BECOME A SPONSOR

To become a sponsor, use the attached form. Once completed send it to Jill Abbott at jabbott@seg.org along with any questions you may have about the workshop or sponsorship.
