

SPONSORSHIP

SUMMIT ON DRONE GEOPHYSICS

23–26 OCTOBER 2023 • VIRTUAL

SEG Near-Surface Geophysics Summit on Drone Geophysics

Event dates 23–26 October 2023

Event times: 9:00a.m.–1:00p.m. each day (Central Time)

Location: virtual

Workshop Description

The first three Summits on Drone Geophysics were held in November 2020 and 2021, and October 2022 and were—by all accounts—huge successes. Registered attendees will learn about the latest developments in the quickly evolving world of drone enabled magnetometry, electromagnetics, ground penetrating radar, gamma ray spectroscopy, and issues associated with acquiring geophysical data with a drone. Further, attendees will learn about application use cases of drone geophysics technology. The upcoming 4th Summit on Drone Geophysics will build and expand on the themes expressed in the first three events by placing emphasis on drone geophysical applications, an innovation panel and numerous keynote speakers to anchor technical sessions, along with end of day group discussion sessions.

Become a Sponsor

Sponsorship opportunities are available for this highly-anticipated virtual workshop. For more information regarding the virtual workshop or sponsorship opportunities, please e-mail **Laurie Whitesell** at ns@seg.org. To sign up as a sponsor, please complete the back of this form and fax it to **+1 918-497-5558**.
