# ORDERING INSTRUCTIONS

## Placing an Order

Browse and purchase SEG print publications online at [seg.org/shop](http://seg.org/shop) and SEG eBooks at [library.seg.org/home/book](http://library.seg.org/home/book). Email [books@seg.org](mailto:books@seg.org) if you have any questions. Prepayment is required for all orders. Publication prices are quoted as List or Member price. SEG members receive a discount of 45% off of list price on most titles. Nonmembers are offered list price. Prices subject to change without notice.

## International Orders

International customers are responsible for paying customs duties in their own countries. This cost is not included in the cost of shipping the order. Refunds will not be issued for books that are undelivered because customs duties or brokerage fees were not paid.

Customers in the United Kingdom, continental Europe, Middle East, Africa, Asia-Pacific, Latin America and the Caribbean also may order from Eurospan: online [eurospanbookstore.com/seg](http://eurospanbookstore.com/seg), email [direct.orders@marston.co.uk](mailto:direct.orders@marston.co.uk), or phone +44 (0) 1235 465577. Trade orders and enquiries from the above-listed regions should phone +44 (0) 1235 465576 or email [trade.orders@marston.co.uk](mailto:trade.orders@marston.co.uk). Special offers/sales appearing on the SEG website are not honored by Eurospan.

## Receiving Your Order

Orders for printed books are sent within three business days of order receipt. Printed copies are sent via UPS and an email with the tracking number will be sent to the customer. Purchases of e-books are added to the customer's online account. After purchasing an e-book, check your email for a link to the full-text version of your purchase (sent from [subscriptions@seg.org](mailto:subscriptions@seg.org)). Alternatively, you can access your purchase after logging into your account in the SEG Library.

## Undelivered/Refused Delivery

When orders are returned to SEG as undeliverable (due to incorrect or missing address information) or as refused, SEG will contact the purchaser by email or by telephone. If no response has been received within 90 days, items will be returned to inventory. A 15% restocking fee, the original shipping cost, and the cost of return shipping to SEG will be deducted from the order total before a refund is issued. International customers are responsible for paying customs duties in their own countries. This cost is not included in the cost of shipping the order. Refunds will not be issued for books that are undelivered because customs duties or brokerage fees were not paid.

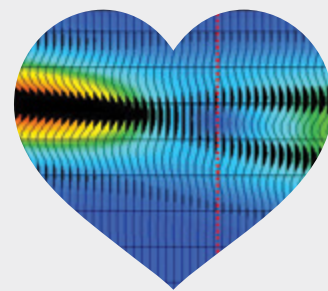

## Return/Refund Policy

All returns MUST have Return Merchandise Authorization (RMA). Items without an RMA will be refused and returned at the purchaser's expense. Please contact SEG by phone 1-918-497-5546, fax 1-918-497-5558, or email [books@seg.org](mailto:books@seg.org) to obtain an RMA or to report shortages/misshipments. SEG will only accept authorized returns. SEG will deduct a 15% restocking fee (minimum of US\$5.00) from the refund amount. Returns must include: SEG invoice number, SEG order number, name, address, phone number, email address, and reason for return. Returns should be sent with the RMA to SEG/Ware-Pak, 2427 Bond Street, University Park, IL 60484. *Encyclopedia Dictionary of Applied Geophysics, fourth edition* – this classic text by Robert Sheriff is available in English, Spanish, and Arabic. Translation of the more than 6700 terms in Mandarin and Russian is ongoing

*Problems in Exploration Seismology and their Solutions* – written by Lloyd P. Geldart and Robert E. Sheriff, this book is designed for those who need a refresher on the basic theory required to solve practical problems.

*Digital Imaging and Deconvolution: The ABCs of Seismic Exploration and Processing* – written by Enders Robinson and Sven Treitel, this book covers the basic ideas and methods used in seismic processing, concentrating on the fundamentals of seismic imaging and deconvolution. Translation of the book into Spanish is ongoing.

### Biographies and History

Capturing the history of exploration geophysics through hundreds of biographies, entries highlight the important contributions from the founding members of SEG and the women in geoscience. Winners of SEG awards and an outline history of SEG also are available.

### Tutorials and Articles

Serving as a brief exploration of a geophysical topic, the tutorial series published in *The Leading Edge* uses open data sets. Articles also are available on many topics including geophysics, mathematics, computer science, geology, geological engineering, and petroleum engineering.
