

WORKSHOP INVITATION

New Advances in Seismic Interpretation

8–9 December 2026 • Muscat, Oman

Dear

Thank you for your interest in attending the Society of Exploration Geophysicists (SEG) Workshop on **New Advances in Seismic Interpretation**, being held from 8–9 December 2026.

This workshop aims to highlight cutting-edge advancements in seismic interpretation, focusing on structural, stratigraphic, geomechanical, and petrophysical domains. Building on the foundation of previous workshops, this edition focuses on emerging technologies and methodologies that are transforming subsurface imaging and reservoir understanding. The workshop will bring together experts from academia, industry, and technology providers to showcase state-of-the-art workflows and innovations in seismic interpretation across traditional and energy transition domains. Moreover, it will emphasize the increasing role of seismic interpretation as an integrative platform, supporting decisions across the full spectrum of exploration, development, production, and field lifecycle monitoring.

Please go to [Oman Police Website](#) for more details on visa application process and requirements for your nationality.

We understand that you will bear all expenses related to your visit. SEG is not able to contact the embassy or any government agencies on your behalf; this is your responsibility.

We look forward to seeing you in Muscat, Oman.

Sincerely,

SEG Workshop Organizers
