

INVITATION

INJECTION-INDUCED SEISMICITY WORKSHOP

16–17 June 2026 • Banff, Alberta, Canada

Date:

To:

Visa Officer
Embassy of Canada / Consulate of Canada

Subject:

Invitation to Attend the 2026 SEG/SPE Injection-Induced Seismicity Workshop — Banff, Alberta, Canada

Dear Visa Officer,

This letter is to formally invite

at

to attend the Injection-Induced Seismicity Workshop organized by the Society of Exploration Geophysicists (SEG) and Society of Petroleum Engineers (SPE).

The Workshop will take place 16–17 June 2026 at the Banff Centre for Arts and Creativity, Banff, Alberta, Canada.

Since the first workshop held in 2012, significant advancements have been made particularly in effective management leveraging the extensive seismic monitoring efforts as well as fundamental understanding of causal relations to both disposal wells and hydraulic fracturing operations. The 2026 workshop returns to Banff for continued discussions of state-of-the-art understanding, regulations, and management of injection induced seismicity. With the global spread of injection induced seismicity over the last 14 years, “best practices” have emerged including risk assessment, seismic and operational monitoring, operational protocols, and mitigation. In Banff, recent case studies associated with hydraulic fracturing, waste disposal, carbon sequestration, and geothermal systems will be highlighted. This ongoing dialogue between academics, regulators, and industry stakeholders will continue to serve as a seminal moment in understanding of induced seismicity.

Visitor Information

Name:

Nationality:

Passport Number:

Position:

Company/Institution:

We confirm that the above-named person has been invited to participate in this professional event. The purpose of the visit is solely to attend the 2026 SEG/SPE Injection-Induced Seismicity Workshop. The participant will be responsible for their own travel, accommodation, and related expenses during their stay in Canada.

Should you require any further information, please do not hesitate to contact us.

Sincerely,

Chair on behalf of the SEG/SPE Injection-Induced Seismicity Workshop Organizing Committee
Shawn Maxwell, Ovintiv Services, Inc.
